The Correct Styles for Spring'19

OST MEN like to have some information in advance about the new ideas in men's clothes; and because most men consider this store as a style center, we believe they'll appreciate these style notes for spring '19. We make it a point to be first with the news; we get the best clothes that are made for you; clothes produced by real style creators—

Hart Schaffner & Marx

General tendencies

IN THE spring styles created by these great clothes makers you'll find that the openings at the front of the coats are a little lower; lapels are slightly narrower; the notches of the lapels are a little lower; the coats are body tracing with a little more suppression at the waist line.

Waist-seam suits

ART SCHAFFNER & MARX waist-seam suits are the order of the day; specially becoming to the well set-up fighter coming back and to the average young American; single and double-breasted; slash pockets are favorites; many of them have piping around the collars and the pockets; some have the bell sleeves and roll sleeve-

You'll see the above picture "When you meet our boys" in the Saturday Evening Post of March first; look for it.
